Fahim Fardin

Dhaka, Bangladesh — Email: fahimfardin1045@gmail.com

LinkedIn: fahim-fardin-28616822a — GitHub: fahim-fardin-1045 — Portfolio: Fahim Fardin Portfolio

Professional Summary

Entry-level Python developer with a strong foundation in software engineering, data analysis, and machine learning. Proficient in Python, Java, SQL, and ML model development, with hands-on experience building full-stack applications and automating data workflows. Fast learner with strong analytical thinking and a commitment to writing clean, maintainable code. Seeking to contribute to impactful engineering projects while growing technical expertise.

Education

- **Daffodil International University** Jan 2022 – Dec 2025
  B.Sc. in Software Engineering — CGPA: 3.78
- **BCIC College, Mirpur-1, Dhaka** 2020
  HSC in Science — GPA: 5.00
- **Monipur High School & College, Mirpur-2, Dhaka** 2018
  SSC in Science — GPA: 4.89

Technical Skills

- **Proficient:** MS Excel, Data Entry, Data Annotation, Documentation, Python, SQL, Machine Learning, Data Analysis, Data Visualization, Git/GitHub, Jupyter Notebook
- **Intermediate:** Java, Bootstrap, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, VS Code
- **Familiar:** CSS, PHP, Django, Spring Boot, TensorFlow
- **Also:** Statistics
- **Core Competencies:** Record Keeping, Quality Assurance, Field Coordination, Communication Skills

Professional Experience

- **Data Labeler** Jan 2026 – Present
  ARC Annotation — Toronto, Ontario (Remote)
  Deliver precise, high-quality data annotation services for AI and machine learning projects, with a focus on **Image Research**. Maintain accuracy, reliability, and attention to detail across large-scale labeling workflows.

Projects

- **Doctor Appointment Scheduler** GitHub
  Java, Spring Boot, MySQL, Thymeleaf
  Built a clinic appointment scheduling platform supporting real-time availability, slot booking, and patient registration. Implemented MVC workflows, MySQL persistence, and a SOLID-based modular architecture.
- **Online Super Shop (E-commerce Platform)** GitHub
  Django, Python, Bootstrap, SQLite
  Built a full-stack e-commerce system with product browsing, cart, checkout, order tracking, and admin inventory control. Implemented secure authentication and optimized database queries for faster page performance. Designed a responsive user interface with Bootstrap.
- **ZenBlog (Content Management System)** GitHub
  PHP, JavaScript, CSS, MySQL
  Developed a dynamic blogging platform with post management, categories, and user authentication. Implemented CRUD operations and an admin dashboard with secure database interactions.

- **Hotel Management System** GitHub
  PHP, JavaScript, CSS, SCSS, MySQL
  Built a full-stack hotel management system enabling room booking, availability tracking, and customer management. Implemented user authentication, booking workflows, and admin controls; designed a responsive UI using modular SCSS.
- **Movie Ticket Booking System** GitHub
  C, File Handling
  Created a CLI-based booking system featuring movie listings, showtimes, seat selection, and ticket generation. Used file handling for persistent storage and implemented input validation for error-free usage.

Certifications

- AWS Academy Graduate – Machine Learning for NLP
- AWS Academy Graduate – Machine Learning Foundations
- Neural Networks and Deep Learning – DeepLearning.AI
- Improving Deep Neural Networks – Optimization & Tuning
- Foundations of User Experience (UX) Design – Google
- Professional UI/UX Design with Figma (Online) – UY LAB
- Start the UX Design Process – Google
- Learn JAVA Programming – Udemy
- Python for Everyone – Udemy
- MS Excel Automation: Excel Data Analysis with Python – Udemy
- Microsoft Word Essential Training – Udemy
- Data Analytics for Project Management – Udemy

Additional Information

- **Languages:** Bengali (Native), English (B2)
- **Interests:** Studying Abroad, Traveling, Sci-Fi Books, Movies
